Understand your Audience

User behavior on a website can be compared to a shopper's behavior in a physical store. Just as a shopper may browse different aisles, pick up and examine products, and make purchases, a website visitor may click on different pages, spend varying amounts of time on the site, and complete certain actions (such as making a purchase or filling out a form). **Google Analytics** allows website owners to track and analyze this "shopper behavior" on their website, giving them insights into how to improve the website and attract more customers. Each page view, click, and conversion is like a word, and by analyzing the patterns and sequences of these "words" website owners can understand the "sentences" and "conversations" that users are having with their website. Just as a linguist can understand the meaning behind a sentence by looking at its structure and context, website owners can use analytics to understand the motivations and needs of their users by analyzing their behavior on the site.

Learning Objectives

- Compare the behaviour types of users
- Assess the behaviour of users

Topics

- Overview of audience
- Users behaviours
- Evaluate Acquisition
- Understand Behaviour
- Evaluate Conversion
- Evaluate Retention/Loyalty

“Users will never forget how your product or service made them feel.”

Mario Maruffi

Overview of audience

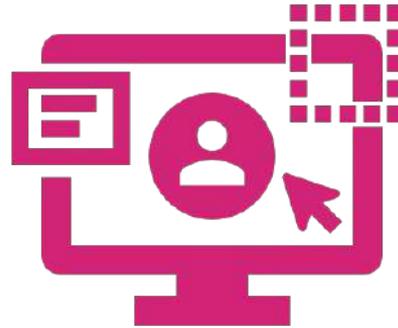

Overview of audience

User vs. Sessions

User

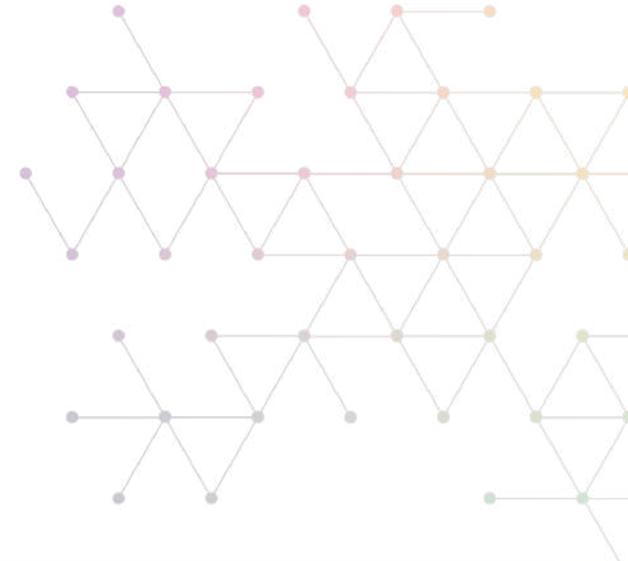

**User has
sessions**

Overview of audience

Audience demographics

- Geography and language
- Genre and age
- Interest
- Technology and devices

Assessment Activity

The groups access the demo google analytics account and choose the Google Analytics 4 property:

Google Merchandise Store

Using the data from the platform, answer the following questions:

- a) What is the demographic profile of the audience (e.g., age, gender, income, etc.)?
- b) What technology do they use?

Evaluate Acquisition

Assessment Activity

The groups access the demo google analytics account and choose the Google Analytics 4 property: **Google Merchandise Store**

Using the data from the platform, answer the following questions:

- a) Identify the different channels that are driving traffic to your website, such as organic search, direct, referral, social, email, and paid search.
- b) Analyse the data to determine which channels are the most effective at acquiring new users.

Assessment Activity

The groups access the demo google analytics account and choose the Google Analytics 4 property: **Google Merchandise Store**.

Using the data from the platform, answer the following questions:

- a) Study the different metrics such as pages per session, bounce rate, session duration, and exit rate.
- b) Analyse the data to understand how users interact with the website, such as which pages are most popular and where users tend to drop off.
- c) Use the navigation summary report to identify the most common path that users take through the website.
- d) Create a report that includes a breakdown of the user behaviour metrics for different sections of the website (e.g., blog, product pages, checkout process)
- e) Using the data from your report, make recommendations on how to improve user engagement and reduce bounce rates by optimizing the most popular pages and addressing issues that cause users to drop off.

Assessment Activity

The groups access the demo google analytics account and choose the Google Analytics 4 property: **Google Merchandise Store**.

Using the data from the platform, answer the following questions:

- a) Identify the goals that you have set up for the website, such as form submissions, product purchases, and account creations.
- b) Analyse the data to understand the conversion rate for each goal and identify any potential bottlenecks in the conversion process.
- c) Use the funnel visualization report to identify where users are dropping off in the conversion process and understand which steps of the process are causing the most friction.
- d) Create a report that includes a breakdown of the conversion rate for different sections of your website (e.g., product pages, checkout process, thank you page)
- e) Using the data from your report, make recommendations on how to improve the conversion rate by addressing issues that cause users to drop off and optimizing the most popular pages.

Assessment Activity

The groups access the demo google analytics account and choose the Google Analytics 4 property: **Google Merchandise Store**.

Using the data from the platform, answer the following questions:

- a) Analyse the data of user engagement over time, such as the number of returning users, frequency and recency of visits, and average session duration.
- b) Use the Cohort Analysis report to understand how user engagement changes over time and identify patterns in the behaviour of different groups of users.
- c) Create a report that includes a breakdown of the retention rate for different sections of the website (e.g., product pages, blog, account pages)
- d) Using the data from your report, make recommendations on how to improve retention rate by addressing issues that cause users to disengage and optimizing the most popular pages.

Consolidation Activity

Consolidation Activity

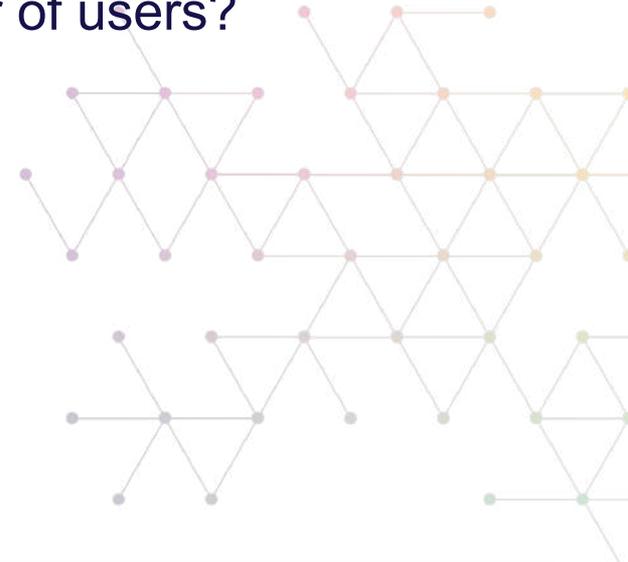

The groups access the demo google analytics account and choose the Google Analytics 4 property: **Google Merchandise Store**

- a) Generate a report summarizing your findings and recommendations, including any insights you've gained from analyzing acquisition user behavior.
- b) Generate a report summarizing your findings and recommendations, including any insights you've gained from analyzing user behavior.
- c) Generate a report summarizing your findings and recommendations, including any insights you've gained from analyzing user behavior and conversion data.
- d) Generate a report summarizing your findings and recommendations, including any insights you've gained from analyzing user behavior and retention data.

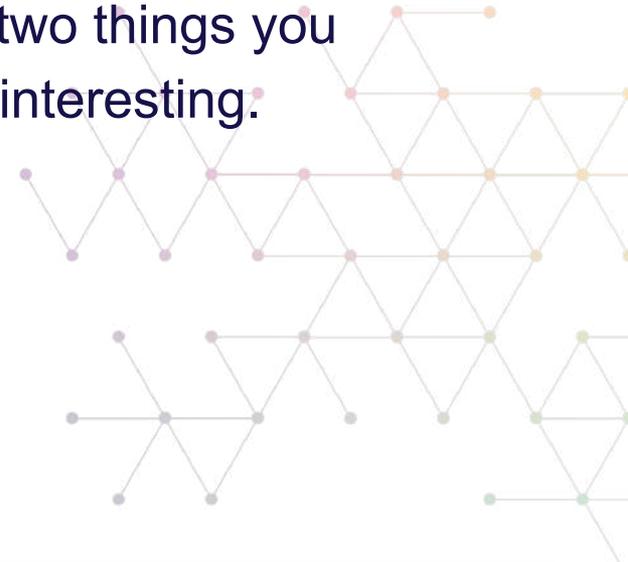

Recap of Learning Objectives

- Now, can you compare the behaviour types of users?
- Now, can you assess the behaviour of users?

Recap of Learning

- In your opinion, what is the most important thing we learned today?
- Describe three things that you learned today, two things you need clarification on and one thing you found interesting.
