

Compreender o seu público

Análise e monitorização digital

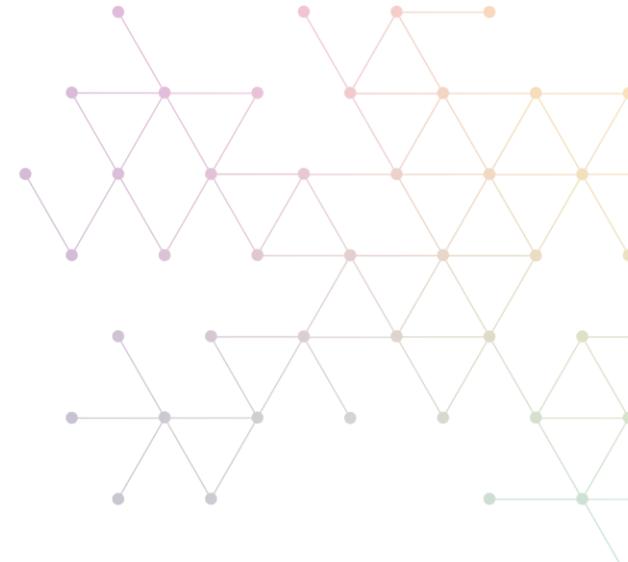

Compreender o seu público

O **comportamento do utilizador** num sítio Web pode ser comparado ao comportamento de um comprador numa loja física. Tal como um comprador pode percorrer diferentes corredores, pegar e examinar produtos e fazer compras, um visitante de um Web site pode clicar em diferentes páginas, passar quantidades variáveis de tempo no site e concluir determinadas acções (como fazer uma compra ou preencher um formulário). **O Google Analytics** permite que os proprietários de Web sites acompanhem e analisem este "comportamento do comprador" no seu Web site, fornecendo-lhes informações sobre como melhorar o Web site e atrair mais clientes. Cada visualização de página, clique e conversão é como uma palavra e, ao analisar os padrões e as sequências destas "palavras", os proprietários de sítios Web podem compreender as "frases" e as "conversas" que os utilizadores estão a ter com o seu sítio Web. Tal como um linguista pode compreender o significado por detrás de uma frase observando a sua estrutura e contexto, **os proprietários de sítios Web** podem utilizar a análise para compreender as motivações e necessidades dos seus utilizadores, analisando o seu comportamento no sítio.

Objetivos de aprendizagem

- Comparar os tipos de comportamento dos utilizadores
- Avaliar o comportamento dos utilizadores

Tópicos

- Visão geral do público
- Comportamentos dos utilizadores
- Avaliar a aquisição
- Compreender o comportamento
- Avaliar a conversão
- Avaliar a retenção/fidelização
